Hello! My name is Bryan, I am 20 years old and I am a university student living in Melbourne Australia. I was fifteen when I got my first job. I mowed the lawn for my grandparents.

I still have this job today and I visit their house every 3 weeks on the weekend to work. I am paid \$20 every hour and I have been mowing their lawn for over 5 years. I ride my bicycle to their house because it is only 4 km away.

I must prepare the mower, collect all of the cut grass, and clean the garden paths when I'm finished. It takes me about 3 hours to mow their lawns and tidy the garden. The most difficult part of this job is working in summer: sometimes it can be very hot in the sun. I must be very careful not to get sun burnt or dehydrate.

I like this job because I work for my family and I get to spend time with my grandparents. What I dislike is the grass growing at different speeds in each season. It makes it difficult to organize time for my work.
