

Australia is the biggest Island in the world and the smallest continent, it is one of the sunniest countries.

If you are a fan of nature, adventure and animals, I recommed you to go to Australia. In Australia we can see famous animals, the widlifeand the peoples are so cool !!.

You can watch the sunrise with dolphins and the sunset there we can ride a camel but in Australia there are the most dangerous animals on Earth. Australia has the best spots in the world !.

If you could go in Australia, you would go in the Great Barrier Reef, this is my favourite places because it is the biggest attraction in Australia. If you are looking for crystal clear waters and sunshine, I recommed you to fo to the Great Barrier Reef!, I love sea animals and this is the best place to see them. You can dive, see tropical fish and sea turtles, the Great Barrier

Ayers Rock is one of my favourite places. You can see the desert and enjoy the ancient places. If you want to know more about history and adventures, why not to go to Ayers Rock, this place is Amazing !!. It is the most fascinating sight, you can see the most ancient musical instrument, the Didgeridoo!, aborigines played this instrument and they have the oldest history on Earth. Then, you should go on a safari in the outback.

Finally the Sydney Opera House is so awesome. It is also one of my favourite places because if you are found of Art and architecture, don't miss the Opera House in Sydney, it is the most fantastic building, you can go to a concert and having fun !.
