## Cuddle a Koala

- Queensland is one of three Australian states that allows visitors to hold a koala.
- The world's first and largest koala sanctuary is located at Brisbane. Lone Pine Koala Sanctuary is home to more than 130 koalas, and you can hold one any day of the week. The carers at Lone Pine select only a few of their koalas to meet guests to ensure the animal has a suitable personality and temperament. Some koalas are so comfortable in the arms of humans that they even doze off for a nap.
- There are plenty of opportunities to snuggle up with a koala outside of Brisbane, too. While you're here, pay a visit to the wildlife hospital, which treats injured animals and releases them back into the wild.
