

Australia

Australia is the biggest Island of the World.

It is in the Southern Hemisphere. The size of Australia is bigger than the size of Europe.

The capital city is Canberra, but Sydney is bigger and more popular.

First of all, my favorites places.

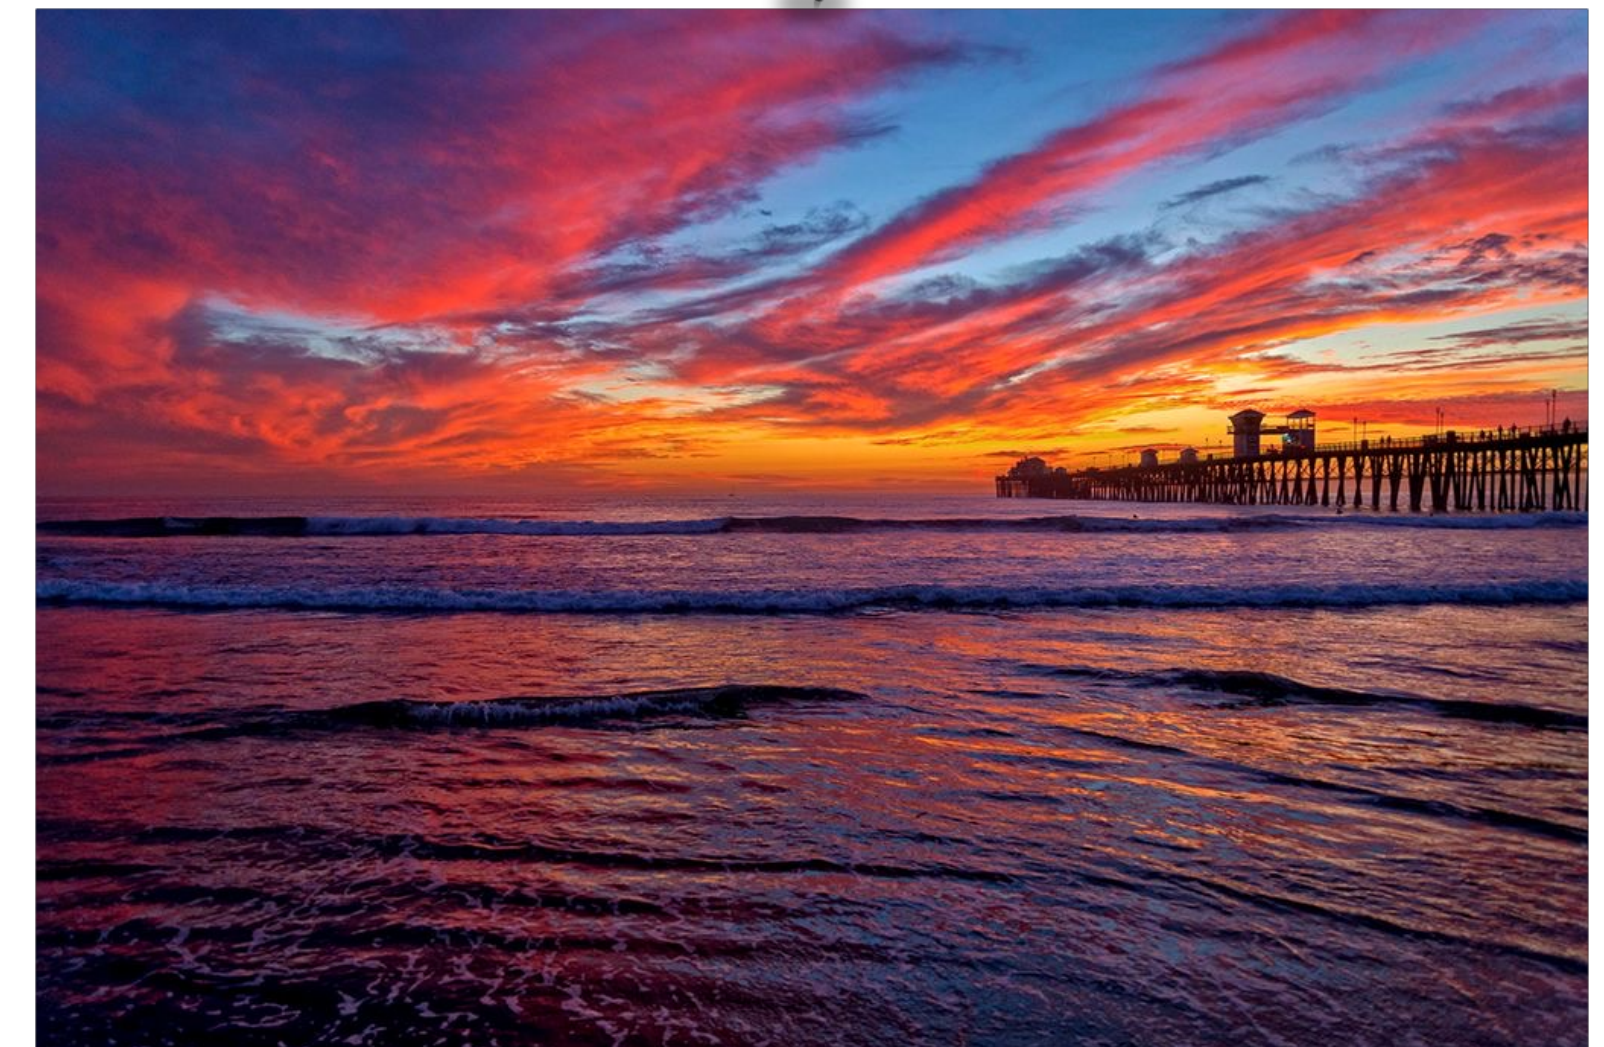

Beaches

On Australia's beaches you can swim, dive and see tropical fishes.

You can watch the sunrise, the sunset, you can go surfing on the first wave on the day or ride a camel.

Don't miss the beautiful crystal clear waters! If you like sports, Australia has the best surfing spots in the world. Local people enjoy surfing because it is the most popular water sport here.

I think the best place in Australia is the Great Barrier Reef! The beaches are the nicest in the world. You can see turtles and enjoy the sunniest place on Earth.

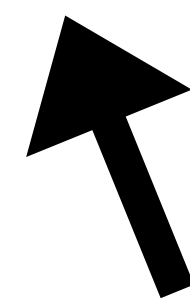

Desert

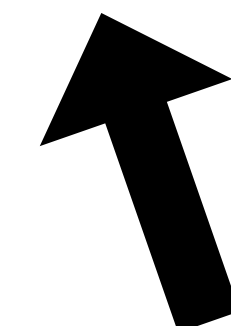

Didgeridoo: <https://m.youtube.com/watch?v=LIRckRNjPNk>

If you are looking for ancient places and beautiful landscapes, why not go to the desert? You can have a safari and see kangaroos bounce. You can also see the Ayers rock, is the most fascinating site. You can discover the oldest history on Earth : the Aborigines. It is the most interesting history. If you are fan of music, you can try the most ancient musical instrument : the

Didgeridoo !

Sydney

Finally, if you go to Australia I recommend you go to Sydney. It is the largest and busiest city in Australia.

If you want to have fun and meet local people, don't miss the Sydney Opera House. You can go to a concert. It is the most wondrous building of Australia. If you are fond of shopping, there are the trendiest shops. So, it is amazing.
