

My trip about AUSTRALIA

The famous places

ULURU is a famous and sacred place for the Aborigenes. Uluru is a big rock protected by the Unesco world héritage. This site he is very tall, from the top at 348 meters, you can see the whole plain !

I like this place because the colors are very wondrous, it's my favourite place in Australia !. Uluru is the most beautiful place because the sunset and the sunrise give it so many red colors.

It was the longest trail I have never done, I walked 10 kilometers around the rock under the sun !

The Sydney Opera and the Bay

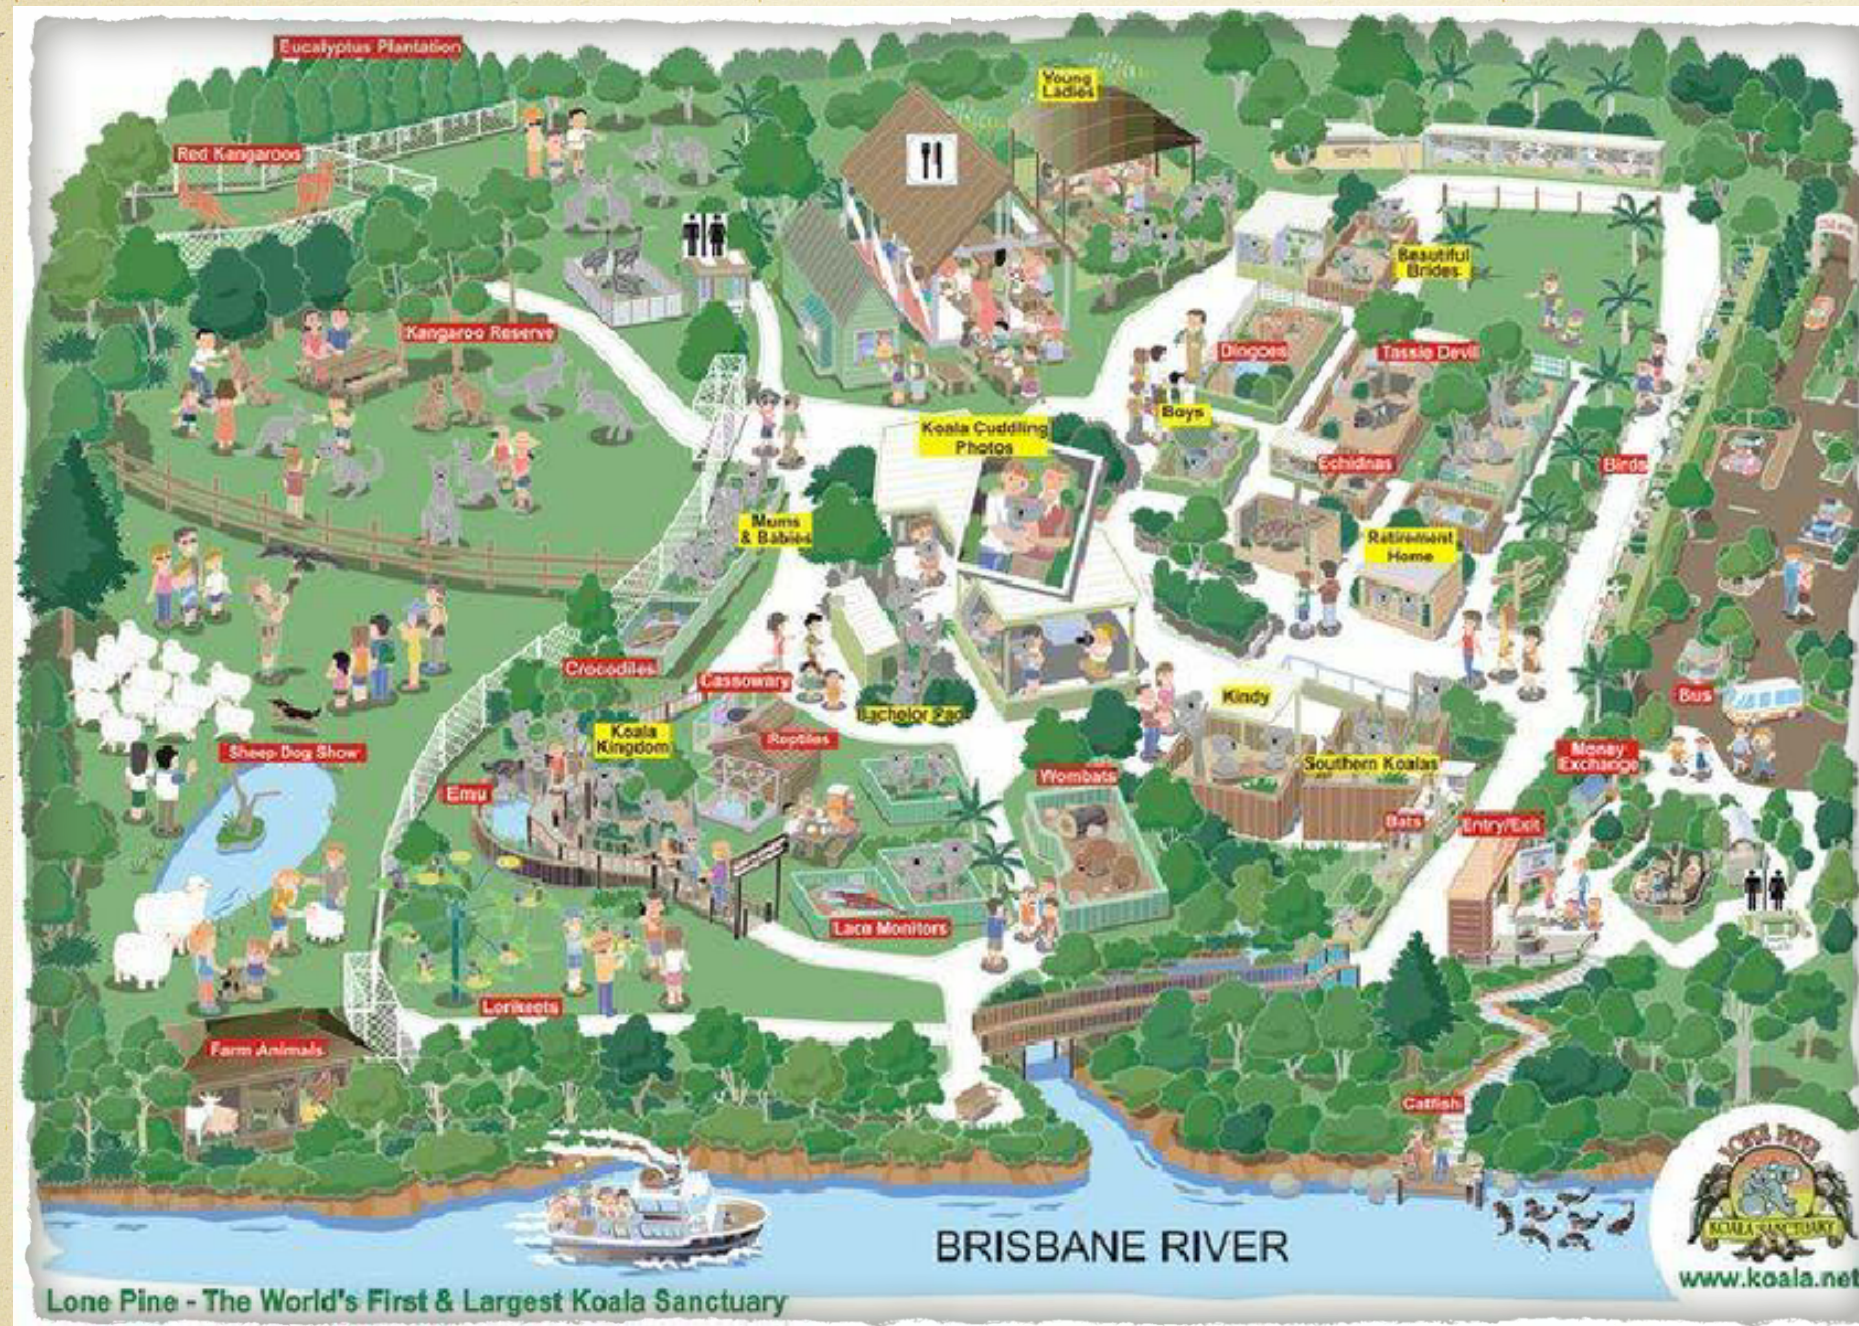

Sydney is the biggest and holdest town of Australia, it's a very lively town ! Its bay is the most spectacular in the world : I saw there the Opera and the Harbour Bridge.

This Opera is the most unforgettable place to listen to classical music and has the most elegant roof because of its leaf palm form !

If you want to discover places around Sydney, you can have a boat trip to avoid tiredness, you will live the greatest boat trip under the blue sky ! I really suggest you do it

The lone Pine Koala Sanctuary

The wildlife reserve where I had the most fun in my life was the lone pine koala sanctuary. You can hold in your arms one of the 130 koalas !It is the cuttest animal in the world, It is very soft, I enjoyed cuddling it !I saw a lots of Australian animals like wombats, kangaroos ,crocodiles and dingo.

The Great Barrier Reef

I suggest you if you like sharks and tropicals fishes to drive to the Great Barrier Reef ! If you enjoy extrem sports like rafting and bungee jumping, you can stop at Cairns. The landscape is the most fascinating, all is natural and it is a great spot to surf and dive with mate .

The capitals city of AUSTRALIA

Canberra is famous for its National Gallery, its Parliament House and Botanic Gardens. If you want to discover Aborigines cultur and art, you can see the most beautiful "dreaming" of great artists on the floor, just in front of the Old Parliament House. The Aborigines "dreaming" is an pictural art with little colors points. I suggest to you to meet Aborigines artists to learn more about them .

HAVE FUN IN AUSTRALIA

These designs were traditionally used as body paint decorations for men, women and children.
