

You aren't the person who went to school with her fears
 You aren't the person who ate alone at the canteen
 You aren't the person who read mean texts on her
 You aren't the person who cries every time in silence
 You aren't the person who was kicked and pushed after school
 You aren't the person who was bullied at school
 You aren't the person who was destroyed
 And you aren't the person who is dead
