- A) Be 21 years old and a world citizen.
- B) Be born in the United States and be at least 35 years old.
- C) Be a member of a political party.
- D) Have a university degree.

4. What are the two main political parties in the United States?

- A) The Democratic Party and the Republican Party.
- B) The Socialist Party and the Green Party.
- C) The Liberal Party and the Conservative Party.
- D) The Communist Party and the National Party.

5. Who is the Democratic candidate in the 2024 election?

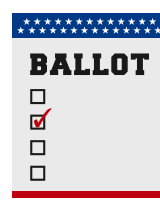

- A) Joe Biden
- B) Kamla Harris
- C) Donald Trump
- D) Barack Obama

6. What will happen in November 2024?

- A) A national party for presidents.
- B) The election of the new President of the United States.
- C) A big debate between candidates.
- D) The appointment of new government members.

7. What is the Electoral College?

- A) A school for voters.
- B) The system that helps choose the president.
- C) An association for former presidents.
- D) A group of government representatives.

The Electoral College

In the U.S., the people don't vote directly for the president and vice president. Instead, a system called the Electoral College is used. This system allows voters to vote for electors, who then cast their votes for candidates, a system described in Article II of the Constitution.

How it works

Each state is entitled to a number of electors equal to that state's representation in Congress.

Example

2 senators (every state)
+
8 members of the House of Representatives

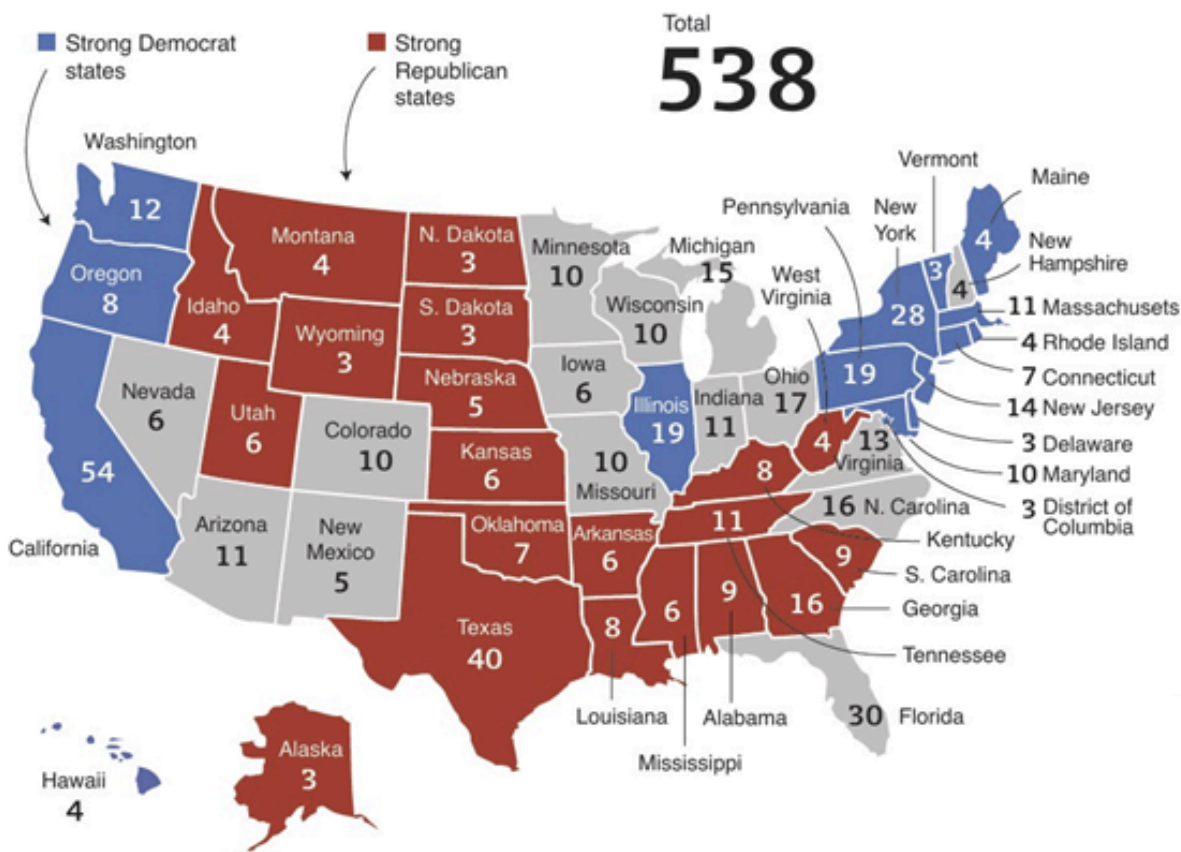

= 10 electors for that state

Every four years, on the Tuesday following the first Monday of November, each state holds an election in which citizens vote for a "ticket" that includes a president and vice president.

But what the voter actually votes for are the electors for their state. These electors then vote for the president and vice president the voter has chosen.

How many electors

8. What is the Electoral College?

- A) A group of people who vote for the president and vice president.
- B) A college where presidents study.
- C) A place where people vote directly for the president.
- D) A government building.

9. Who do people actually vote for in the Electoral College system?

- A) The president directly.
- B) The vice president.
- C) Electors who represent their state.
- D) The governor of their state.

10. How many total electors are there in the Electoral College?

- A) 100
- B) 270
- C) 538
- D) 50

11. How many electors are needed to win the presidential election?

- A) 270
- B) 538
- C) 51% of the popular vote
- D) 40

12. How is the number of electors determined for each state?

- A) Based on the state's population only.
- B) By adding the number of senators and representatives of each state.
- C) Each state gets the same number.
- D) By a random draw every four years.

13. What happens if a candidate wins 51% or more of the votes in a state?

- A) They get all the electors from that state.
- B) They split the electors with the other candidate.
- C) They automatically win the election.
- D) They lose the electors from that state.

14. When do electors cast their official votes for president?

- A) The day after the election in November.
- B) In December, after the general election.
- C) On the first Monday of November.
- D) On January 1st.
